POL-11 Card data and retention

Card numbers

Full card numbers never leave the vault service. Logs, tickets and analytics hold the last four digits and the token only.

Masking in logs

A log line with a full card number is a security incident. Open a SEV2, purge the log index, and tell the security team.

Retention

Ledger entries are kept for 7 years, as financial law asks. Support transcripts are kept for 2 years, then deleted.

Deletion requests

A customer's request to delete their data is completed within 30 days. Ledger entries are kept, with the name and email removed.
